Retiring? AZ Dept. of Education invites contractors to keep building the future as teachers

Reporting about the state of the construction industry workforce often cites the alarming statistic that, for every five construction workers leaving, only one is joining the industry. And with nearly 1 in 4 construction workers older than 55, the need to recruit new talent is urgent.

The Registrar of Contractors (AZ ROC), in its mission to promote quality construction in Arizona, is helping to address this critical need through its annual Construction Science Technology Apprenticeship Fair, in partnership with the D-backs (returning to Chase Field in April); through its collaboration with Governor Hobbs' BuilditAZ Apprenticeship Initiative, and by spreading the message at every event we attend that construction is an honorable and rewarding career pathway that offers opportunities for paid hands-on-learning.

If you are a contractor nearing retirement, AZ ROC and the Arizona Department of Education (ADE) invite you to consider how you may continue to contribute your expertise to the industry by moving from the worksite into the classroom. Future generations need to know how to do it right and how to stay safe--can you help?

**A message from the
AZ Department of Education:**

Hello contractors, thank you for building the roads and structures we utilize daily. When you are ready, Arizona needs your building experience in the classroom to enable future generations to continue building within the state of Arizona.

Please contact the Arizona Department of Education Educator Certification unit at 602 542 4367 or certification@azed.gov for a pathway to certification. Construction Science Technologies are taught under the Industrial and Emerging certificate.

Requirements for certification are located at <https://www.azed.gov/node/27130>

**ARIZONA DEPARTMENT OF
EDUCATION**

Your current work and educational experience can quickly translate into a satisfying CTE teaching career.

Consider a Rewarding Career as a CTE Educator!

BECOME A CAREER AND TECHNICAL EDUCATION TEACHER

A CTE Teacher Certificate is perfect for people who have retired from their field of work.

- Apply your trade and technical skills and experience to teaching.
- If you have worked 3 years or more in your field, you may qualify for CTE teacher certification.
- Give back to your community by passing on your wealth of experience, knowledge, and skills.

MAKE A DIFFERENCE!

Pathways to CTE Teacher Certification include submission of:

1. 240 hours of work experience in an occupational area and a bachelor's degree.
2. 240 hours of work experience in an occupational area and a valid teaching certificate.
3. 6000 clock hours of verified work experience in an occupational area.
4. 5 years of verified work experience in the CTE occupational area and an Industry certification, license, or credential in the specified CTE Certification area.

How?

- Guidance for ADE CTE teacher certification. azed.gov/sites/TeacherCertificationChecklist.pdf
- Online resource that offers lesson plans. Curriculum Connection: cte.ctecaz.org/
- CTE Educator Professional Development. actecaz.org/premier-series/
- Workshops and mentorships are available to help you be a great instructor!

THE REGISTRAR'S REPORT

Greetings! The Arizona legislature is back in session, and your ROC is active. Our primary focus is on A.R.S. § 41-3024.04, known as the "sunset" statute, which mandates the ROC's termination on July 1st, 2024, if not continued. Additionally, statutes in Title 32, Chapter 10, are set to be repealed on January 1st, 2025. This process aligns with regular legislative oversight that all state agencies are subject to, required every 10 years; our last review was in 2014.

Currently, we've completed a self-audit and have filed HB 2091 for our agency and statute continuation (thanks to our bill sponsor Rep. Laurin Hendrix - D14).

We received recommendations for 8 years from the House Commerce Committee and 2 years from the Senate Government Committee. The next steps involve the assignment of our continuation bill to a House committee for a hearing. We'll keep you updated on our progress as we strive to uphold our tradition of serving Arizona's citizens and the contractor community since 1931. We anticipate continuing this legacy into the foreseeable future. Thank you for your consistent support!

What is one thing we should know about you as a leader?

It is important to listen to people to understand what the situation is and if I can help resolve it. I also like to keep in mind that most everyone is dealing with a substantial challenge in their lives, so it's important to be respectful, understanding and make every effort to talk through the problem no matter how upset they may be.

What does success look like for your department?

Often, success is measured by the numbers. It's not always about the numbers, it's about having the right people in the right seats doing work that they are passionate about. If they are motivated and passionate about the mission and the work they do, it will automatically show up in the numbers and they and the department will be successful.

What is a project you've worked on at AZ ROC of which you are particularly proud?

There are several actually, but our most recent project of updating our Workmanship Standards is at the top of that list. These have not been updated in well over a decade and the time has come to move forward. I'm especially proud of our Compliance team for embracing this monumental project and the progress we have made.

If you could have any superpower, what would it be?

Strength I think. Not really a particular reason, it would just be cool. Maybe being able to fly as well. It's a toss up I guess.

AZ ROC Outreach Highlights - December 2023

On a mission...

From meeting with homeowner associations and neighborhood groups, construction trade associations, government agencies, workforce development groups, and education stakeholders, AZ ROC representatives routinely engage with various organizations and community members in order to provide outreach and education in support of the agency's mission. If you would like to request an AZ ROC speaker for your event, fill out the "Request an AZ ROC Speaker Form" on the [Outreach and Education page](#).

AZ ROC CEO Tom Cole (left) and Antoine Coffey (right), Executive Director of Mechanical Trade Contractors of Arizona (MTCAZ), were dressed to impress at the MTCAZ 2023 Annual Awards Celebration in Phoenix on December 1st.

OUR MISSION

To create a sustainable skilled craft workforce by raising awareness about high-paying construction careers and training opportunities and mapping career paths to employment in these high-demand occupations.

BUILD YOUR FUTURE ARIZONA

with Paul Sanders, Build Your Future Arizona

In addition to educating the public about what AZ ROC does, our outreach also extends to educating licensees about resources that are available to help them be successful. During the virtual monthly Licensed Contractor Forum on December 6th, Build Your Future Arizona's Workforce Development Manager, Paul Sanders, informed licensees about their investor program and about the important work being done to showcase to Arizona's youth the lucrative career opportunities available in the construction industry. Check out the [BYF AZ website](#) for information about becoming an investor--and if your organization performs outreach, visit the BYF Shop for some great resources (students LOVE the trading cards!).

Several members of the AZ ROC team were invited to tour the Western States Regional Council of Carpenters Local 1912 Training Center in Phoenix on December 5th. It was a great opportunity for AZ ROC to continue building relationships with stakeholders in the construction industry who are dedicated to providing cutting-edge, hands-on training to the next generation of construction professionals. Pictured below on top (left to right) - Council Representative Bill Ruiz, AZ ROC Chief of Licensing Julie Pickerill, AZ ROC CEO Tom Cole, AZ ROC Assistant Director Cindy Casaus and AZ ROC Public Information Liaison Jessie Winter pose for a quick photo during the tour; at bottom, apprentices learn essential skills and teamwork during their training.

Thank you for inviting us!

The 2023 Arizona Veteran Survey is Now Open!

We're excited to announce that the 2023 Arizona Veteran Survey is officially open, and we invite you to take part!

Ready to Make a Difference?

We invite you to participate in the 2023 Arizona Veteran Survey and have your voice heard. Your contribution is vital in shaping a better future for our military and veteran community.

Who Can Take the Survey?

- **Service Members:** Active Duty, Guard & Reserve from all branches
- **Veterans:** Anyone who has served in the military, regardless of age, era, or discharge status
- **Family Members:** Immediate and extended family members
- **Helpers and Providers:** Anyone who plays a role in serving and supporting our military, veteran, and family population
- **Community Members:** Anyone in the community who cares about and supports our service members, veterans & their families

Survey Details

- The survey takes 10-15 minutes to complete
- Once start, the survey must be completed in one sitting
- Completely anonymous with no personally identifiable information collected

Enter to Win a Gift Card

As a special thank you for your time, there is an optional gift card drawing entry offered upon completion of the survey. The drawing entry is completely separate from the survey responses.

How Are Responses Used?

Your input will be combined with that of others to create a comprehensive understanding of the strengths, needs, challenges, and opportunities for Arizona's service members, veterans, and their families. It will also help us identify how our military and veteran community accesses resources and what barriers may exist.

Privacy is Paramount

Remember, all information is reported as group data, and your privacy is paramount.

Questions?

Should you have any questions or need assistance, please feel free to reach out to us at survey@arizonacoalition.org or call us at 866-4AZ-VETS (866-429-8387).

Thank you for your unwavering support, and together, let's make a positive impact on the lives of our service members, veterans, and their families.

Warm regards,
Arizona Coalition for Veterans and Families

CERTIFIED

IRRIGATION TECHNICIAN

The ALCA Certified Irrigation Technician Training (ACIT) Program consists of a 3-day training including hands-on activities focused on the optimization of water usage and the efficiency of existing irrigation systems.

COST

Early Registration

\$450/Members, \$700/Non-Members

Registration *within 72 hours*

\$550/Members, \$800/Non-Members

DETAILS

Class 1: 7:30am - 2:30pm

Site Assessment

Maximizing Efficiency - Part 1

Class 2: 7:30am - 2:30pm

Maximizing Efficiency - Part 2

Troubleshooting & Repair

Class 3: 7:30am - 1pm

Mandatory in-person attendance

Hands-on Field Day at ALCA

Required to attend all 3 classes to receive access to ACIT Exam and Certification

Must have attended and passed the ACLP Irrigation Class, or equivalent field experience, including proficient use of multi-meter to register for ACIT Program

CERTIFICATION

Must attend all 3 classes and pass ACIT Exam to receive ACIT Certification

SITE ASSESSMENT

- Evaluate existing irrigation systems using checklist
- Site conditions - general plant health, plant problems, infrastructure problems, water pooling, plant type, microclimate, orientation
- Review plans, draw irrigation diagram
- Irrigation components - inventory and condition
- Zoning stations and controller programming
- Assess system baseline performance
- Determine Precipitation Rates (PR)

MAXIMIZING EFFICIENCY

- Determine how much water and pressure needed
- Manage pressure loss
- Determine plant water needs & calculate ET rates
- Calculate/maximize Distribution Uniformity (DU)
- Calculate run times for maximum efficiency
- Manage irrigation schedule according to ET
- Use water management technology and techniques

TROUBLESHOOTING & REPAIR

- Identify common irrigation malfunctions and identify solutions
- Practice the skills necessary to troubleshoot
- Repairing irrigation lines, sprinkler systems, controllers, and water management technology

VISIT THE EDUCATION SECTION ON
WWW.ARIZONA811.COM FOR MORE INFORMATION

All contractors, excavation personnel, safety managers, trainers, forepersons, and supervisors working in the private or public sector in Arizona are welcome and ENCOURAGED to attend.

Visit

arizona811.com/education-and-training to register for an upcoming virtual seminar and to find more information about training opportunities and signing up for email alerts from Arizona 811.

These seminars will provide information to help you:

- **Prevent life-threatening injuries;**
- **Prevent your company or agency from incurring fines, costly facility repairs, or the need to compensate customers for losses;**
- **Prevent damages to underground utilities, which deliver vital services we all rely on every day!**

The following topics will be covered:

- How to navigate the Arizona 811 process to successfully get timely marks for underground utilities before you dig.
- ACC's enforcement policies for Arizona's Underground Facilities Protection law.
- How to recognize and work safely around overhead and underground utilities, including electric, natural gas, and liquid fuels.

ARE YOU READY TO LADDER UP TO A BIGGER LICENSE SCOPE?

*Register for a free virtual
AZ ROC Applicant Education Seminar
Leaders of the Licensing Team will answer your
questions in real time and teach you everything
you need to know about how to reduce common
application errors that delay approval*
